VOLUME CVI.--NO. 239. ALEXANDRIA, VA., MONDAY EVENING, OCTOBER 9, 1905. PRICE 2 CENTS.

Library of Congress

A rich man died the other day. He died in the very midsummer of life, and he left his family $1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dingy complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, despondency. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

"Please accept my thanks for the benefit which my child received from your medicine," writes Mrs. W. A. Morgan, of Silica, Mo. "He had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave him your 'Golden Medical Discovery' and 'Pleasant Pellets,' and they did him great good. I gave him the 'Discovery' about eight months, and several vials of the 'Pellets.' He seems to be perfectly well now."

If you want a cure accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets. These ORIGINAL Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged Stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

## GOT HIS HAIR BACK.

**Was Perfectly Bald When He Started to Use Newbro's Herpicide.**

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '09, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### Charged With Triple Murder.

By the arrest yesterday of Alanzou Graham, on information furnished by Mrs. Ingerick, the authorities believe that the mystery of the triple murder at the Olney farm, near Middletown, N. Y., on Friday will soon be cleared up. Graham, who is 65 years of age and lives alone within a mile and a half of the Olney place, was lodged in jail. A search of his house revealed evidence that appears to clearly connect him with the crime.

Mrs. Ingerick, who was found fearfully injured and insensible in the Olney barn, recovered consciousness yesterday morning sufficiently to understand questions addressed to her by District Attorney Rogers. She was hardly able to speak, but replied to injuries by nodding and shaking her head. Precisely what information was elicited from her has not been made public, but immediately after the examination County Detective Wood and Chief of Police Brinkerhoff hastened to Graham's house and arrested him.

Later, when a thorough search was made of the place, the detectives found bloodspots on the floor and a pair of overalls spotted with blood in the kitchen. Graham took his arrest coolly and declined to make any statement.

Mrs. Ingerick was formerly employed as a housekeeper by Graham and left there about two months ago to go to the Olney brothers. Graham, who is said to have been jealous of Mrs Ingerick, is known to have made several visits to the Olney place within the past two weeks, apparently for the purpose of persuading the woman to return to him.

Additional information tending to connect Graham with the crime was given to the District Attorney yesterday by Lulu Ingerick, the 13-year-old sister of the murdered girl, who was the first to discover the tragedy. Lulu said that Graham frequently threatened to strike her mother when she was employed by him. She also described him as a man of a violent and cruel disposition, and as an illustration told how he had killed several cats by driving chisels through their bodies and cutting off their heads. He appeared, she said, to have a particular dislike of her little sister, the murdered girl.

Graham was later released, no evidence being adduced against him.

### Crime of Army Pensioner.

A terrible, and, as yet, inexplicable, tragedy was discovered in the village of Amesbury, near Salisbury, England, early on Saturday morning. Peter Head, an army pensioner, murdered his six children in a lane at the back of the local workhouse, and then committed suicide. Head was formerly a battery sergeant-major in the Royal Garrison artillery, and for sometime past he had been augmenting his pension of 2s. 9d. a day by acting as an insurance agent, his principal clients being soldiers in Buford Camp. His books were in order and he was passionately fond of his children, and the news of the crime was, consequently, scarcely credited by those who knew him. The only possible explanation for the crime is that financial losses on a poultry farm at Picket Twenty, near Andover, and the burden of supporting his mother, in addition to his wife and large family, preyed upon his mind.

On Friday morning he bought a razor at a barber's shop, and at 3 o'clock in the afternoon called at the village school for his children and went home with them. He then told his wife that he wanted to take them all for a walk. He picked up his nine-months-old baby boy, and with five other children, whose ages ranged from 3 to 10 years, left the house. He would have taken his eldest girl, Elsie, but her mother wanted her to go on an errand, and to this fortunate circumstance she probably owes her life. Mrs. Head prepared tea at the usual time. As her husband and the children did not return when darkness had set in, she became alarmed and informed the police.

Shortly after midnight Police Constable Wells was walking along the lane, when he saw the dead bodies of the man and the children lying behind two bean ricks. Their throats had been cut with a razor.

### Could Not be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

### FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

# THE TURN OF LIFE

**A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for It. Two Relate their Experience.**

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

These symptoms are all just so many calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried thousands of women safely through this crisis.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the Change of Life. My womb was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the Change of Life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

**Another Woman's Case.**

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the womb. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for any woman at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

### Thousands Were Drowned.

The steamer Tartar, which arrived at Victoria, B. C., Saturday night from the Orient, brought news from Shanghai that the loss of life among the natives of the island at the mouth of the Yangtze river as a result of the typhoon at the beginning of September was tremendous. The North China Daily News, of Shanghai, says: "To the east of Tamagming two islands, one named Yawoshwa, and the Shihious's, distant about 20 miles from Woosung, have suffered much from the typhoon, nearly all the inhabitants having been swept away. The islands have been inhabited for only a short time, comparatively speaking, as they are of recent formation and are not much above high-water mark. It is reported that nearly 10,000 persons have been drowned on these two islands and the smaller islands adjacent. Tamagming itself has not suffered much, being well above the high-water mark." The Shanghai papers say that the damage to the Canadian Pacific Railroad liner Empress of Japan by the typhoon will necessitate the expenditure of $100,000 for repairs. During the storm the steamer Pechill, formerly the Rio de Grande du Sol, foundered near the mouth of the Yangtze. Her crew of 54 were saved by the German steamer Albenga.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, OCT. 9, 1905.

IT IS REPORTED that when it was first made public that the New York Life Insurance Co pany had contributed $48,000 to the last republican campaign fund Mr. Roosevelt declared that the contribution should be returned to the company but was dissuaded from that course by the national committee who informed him that no such sum was at its command. Mr. Roosevelt then, it is said, next determined that he would issue a public statement regarding this transaction, disavowing all knowledge of the transaction and expressing his regret that the contribution had been accepted. From the issuance of this statement, he was also dissuaded and his advisors pointed out to him that as nothing could be done, the best plan was to adopt a policy of silence as the only means of escape from a bad situation. The "best plan" was adopted and Mr. Roosevelt's conscience is easy on the score that his intentions were good.

STATE SUPERINTENDENT OF INSURANCE W. D. VANDIVER, of Missouri, has sent a communication to John A. McCall, of the New York Life Insurance Company, demanding that the $148,702 campaign fund contribution be replaced in the treasury of the company, under penalty of revocation of the company's license to transact business in Missouri for failure to comply with the demand. In the communication Superintendent Vandiver also informs President McCall that the Missouri Department of Insurance will insist on a new president, vice president and finacial committee for the New York Life Insurance Company just as soon as the directors can possibly effect the reorganization. If all the States would take a similar stand, insurance companies would be compelled to engage only in legitimate business.

JUDGE VANDEVENTER, in the United States District Court in St. Paul, Minn., late Saturday afternoon decided that the case of the United States vs. the General Paper Company was not appealable. This decision related to a motion for stay of a previous order of the court, pending an appeal to the United States Supreme Court. The court ordered that the officers of the Hennepin Paper Company, the Itasca Paper Company and the Northwestern Paper Company must answer the question asked before Special Examiner Taylor, and they must produce the books of the company. If this is done, newspaper publiishers may find out why they are compelled to pay so large a difference between the cost of making paper and the price at which it is sold.

MR. JOHN D. ROCKEFELLER told of the ambition of his life in an address yesterday to the Sunday school of the Euclid avenue Baptist Church, Cleveland. It was, he said, "to have good will toward all men and to possess the solace of the good will of all men." He declared that he could not say too much to his hearers on this subject, because if all worked to those ends heaven would exist on earth. Mr. Rockefeller's ambition is a most laudable one, but one, it is feared, neither he nor any other man will ever attain.

A COMBINATION that will practically control the tableware and china trade of this country has virtually been effected, and a pottery trust, with $40,000,000 capital, is regarded by interested manufacturers in the country, as an accomplished fact. There have been in former years numerous attempts to effect a combination of potteries, but, owing to conflicting interests and the lack of capital, none have succeeded. This time, however, it is said, the capital is not wanting, and the manufacturers have entered readily into the scheme and an advance in tableware may soon be expected.

IF THERE is a shutdown in the spring, says the New York Journal of Commerce, with a large accumulation of coal, there may be no famine next summer, but there will undoubtedly be an increase of price. Then, whatever the settlement and however it may be brought about, the public or consumers will continue to pay the cost of all the quarrels and make up the losses. The prospect is not reassuring, with combinations of capitalists and of workmen closing a monopoly upon the fuel supply of the country.

SECRETARY OF THE INTERIOR HITCHCOCK has issued an order to the civil service commission asking that body to furnish him with a list of eligibles for the position of supervisor of native Indian music. At present there are no eligibles for the position, which pays $1,200 per year. and it is doubtful if any can be found. Here is a chance for some Alexandrians who think they understand music.

IT CAN be stated that President Roosevelt will not demand that the republican national committee return to the New York Life Insurance Company the contribution of $48,000 made by it last year to the campaign fund. Why, of course not, for if a refunding of contributions were commenced, there would be no telling where it would end.

THE Civil Service Commission is preparing to forward a circular letter to all government employes warning them against campaign contributions as in violation of the law. The letter is like those ordinarly circulated when election campaigns are in progress—and don't mean a thing if contributions are made to the republican campaign fund.

REPORTS from Butte, Mont., where the notorious kidnapper, "Pat" Crowe, is now in jail, say that "many women carried fruit and bouquets to the prisoner." Such illogically sentimental women furnish a fine illustration of what a topsy-turvy world this would be were they in the majority.

MEMBERS of a police squad were held in check for three-quarters of an hour one day last week by ammonia while raiding an alleged poolroom in Bond street, New York. Poolroom men are a resourceful set and it is not known what weapons they will resort to next.

## From Washington.

Washington, D. C., Oct. 9.

With a membership of over 7,600 representing banking institutions throughout the country, the American Bankers' Association meets here this week to hold the thirty-first annual convention since its organization. Over three thousand members will be present when the convention is called to order at the New National Theatre Wednesday morning. The tremendous resources represented by these financiers may be suggested by the estimate of the Secretary that their aggregated capital, surplus and deposits, amount to $11,460,875,527. The first meeting scheduled is that of the savings bank section, which convenes Tuesday morning. This section was organized three years ago and has 734 members, representing $2,250,000,000 of the $8,000,000,000 in savings bank deposits in this country. A movement is a foot to have the savings banks section declare for monthly statement publications showing their condition, it being felt that this branch of banking finance will be benefited by exchanging with one another such information as will furnish a general knowledge at least once a month of the savings situation throughout the country. Savings bank presidents hope to do something in this line at the present convention. Several very important addresses will be made before the bankers. Secretary Shaw of the Treasury will make two speeches, one at the banquet Tuesday evening and another before the convention Friday.

So stringent has the German law in regard to the inspection and prohibition of imported meats and domestic animals proven, that a "gravely serious" situation has developed in that country, and scores of petitions are being forwarded to the German government insisting upon some modification of the exactions. The condition of affairs will have considerable effect on the pending tariff negotiations between this country and Germany and there is a possibility that after the meeting of the Reichstag at the coming session, the law which largely prohibit the importations of animals and meat supplies from the United States will be repealed. Consul General Mason has gone over the situation and reported to the Department of Commerce and Labor. The home market has failed to supply the meat demanded by the trade. Prices have soared up, until the frenzied poor have driven dealers to put up signs that the high prices are not due to their own rapacity, but are caused by the meat inspection law. In Frankfort on Main alone thirty-three meat stores have had their trade destroyed on account of the high prices. Hotel and restaurant keepers addressed a protest to the imperial chancellor, declaring that meat has become to the German middle and working classes "no longer an element of daily food, but a luxury." At a national meeting of butchers and meat dealers a protest was drawn up, reciting that the qualities of such meat-producing animals on the market are inferior and steadily growing worse and the price of meat so high as to constitute a public calamity. The remedy demanded is the "opening of the frontier. All say the epidemic among Austrian an Russian animals has disappeared and there is no longer an excuse for the law. Others want the restrictions against American meat and animals removed.

Representative Landis, of Indiana, chairman of the congressional committee now investigating affairs in the government printing office, had a consultation with the President this morning in regard to certain features of the inquiry. "The scope of our investigation, if we allowed it to go on, would be simply limitless," said Mr. Landis. "We've just got to limit it if we hope ever to make a report. We expect to turn in some of a report during the next session of Congress, but just when I cannot say. Probably soon after the sessions gets well started. While our work will not be by any means a complete affair, we will do as well as we can with the time at our command."

Governor Glenn, of North Carolina, was one of the callers at the White House this afternoon. "The President has closed my mouth" he said with a laugh, as he emerged from the White House office building. "The President, you know, is going to make a speech down our way and he discussed certain portions of it with me. I also took up the subject of the programme of exercises during the President's visit with his Secretary."

The Navy Department received word today from Norfolk that the cruiser Galveston had returned from her final forty-eight hour steaming trial at sea and had performed her work in a very satisfactory manner. She is required by contract to make sixteen and a half knots per hour in her four hour test, and during this last trial maintained something over fifteen knots for the entire period, which is considered unusually good considering the months of hard service she has undergone since being put in commission. The government completed the Galveston, after the contractors suspended work, and these final trials have been more in the nature of formalities to fulfill the requirements of the contract than real tests of the ship.

The attention of the Treasury Department was today called to the report from Cleveland that Captain C. E. Benham, a former deputy collector of customs, under Collector Charles F. Leach, of Cleveland, had preferred charges against the latter, involving pernicious political activity and other offenses. At the department it was stated that no charges had been received since July 19. On that date Benham's charges, identical with those now published, were received and referred for investigation. On August 20 Benham was informed that the charges had been investigated and not sustained.

Upon seeing Lyons Saturday he approched him from behind and struck him several times. A fight ensued. After getting up, Lyons fired four shots in the negro, all taking effect. The negro walked a few feet and fell dead. Lyons was taken jail. A coroner's jury yesterday held him blameless.

### Shooting Over a Corpse.

Over the dead body of his mother, John Budenek shot his sister, his brother and his brother-in-law in Hastings, Neb. Miss Frances Budenek, aged 12, was shot in the right hand; John Budenek, aged 52, received a bullet above the right eye, and Peter Smeall was shot through the left leg, through the abdomen, in the left thigh and through the left shoulder. The latter two are in a dying condition. The shooting occurred in a death chamber at the home of Mr. and Mrs. Peter Smeall, where Mrs. Budenek died Saturday night, and was the culmination of a family quarrel that has extended for years. Mrs. Budenek was staying at the home of her daughter, Mrs. Peter Smeall, and because of the family trouble her son John was not permitted to see her during her illness. When John heard of his mother's death Saturday night he determined to view the remains. He secured entrance into the Smeall home through the kitchen. Making his way to the death chamber, he entered and found the entire family surrounding the corpse, watching the undertaker prepare the remains. Advancing to the corpse, John placed his hands on the lifeless body and said: "This is my mother." His sister Frances said something to him in Polish, whereupon he struck her. Then he drew a revolver and shot at his sister over the dead body of his mother. Before he could be overpowered he had shot his sister, his brother and his brother-in-law. John Budenek is in jail.

### Plot Discovered.

Berlin, Oct. 9.—Advices received here today state that a conspiracy has been discovered to assassinate King Charles, of Roumania, who belongs to another branch of the Hohenzollern family, and the members of his immediate family. The Roumanian police received information from Paris, Rome, and Vienna, simultaneously, that four anarchists, two Italians, and two Frenchmen, were preparing to carry out a scheme to blow up the royal train while it was proceeding from Bucharest to the frontier. All four of the alleged conspirators were arrested at Pitesti, a town sixty-five miles northwest of Bucharest. Following the arrest the authorities discovered the details of the formidable plot, which was concocted with the assistance of Roumanian revolutionists. The conspiracy had for its purpose the destruction of King Charles, Queen Elizabeth, the Crown Prince and Crown Princess, and their children, Prince Charles, Princess Elizabeth and Princess Marie.

If an attempt is made to float such a loan in London, it is anticipated that it will meet with failure.

### Letter to Alexandria Doctors.

Alexandria, Va.

Dear Sirs: For your house, no matter what's the matter with it—it isn't a human you know—a prescription:

Devoe lead-and-zinc. Apply with a brush, from one to three coats—get a painter to do it.

Seven state chemists know all about Devoe; have analyzed it; report it pure; will analyze it occasionally. They buy it in the open market whenever they like.

You know what the color and dryer are for, do you know what the lead-and-zinc and oil are for? Not being a painter, you may not choose to know; but we'll tell you.

Lead-and zinc and oil combine to form a rubbery waterproof coat to keep out dampness. That's the whole business.

The oil would do it alone; lead-and-oil would do it, without the zinc; zinc and oil without the lead; but the three together are best, because they wear best.

We say to you, "get a painter," as we'd say to him "get a doctor"—every man to his trade. Can't all be painters and doctors; don't want to.

You will be more successful in a prosperous looking house; and be in good health. Take good care of one another.

Yours truly,
F W DEVOE & CO

### Swanson to Reply to Shaw.

[Special Dispatch to the Alexandria Gazette.]

Richmond, Oct. 9.—Mr. Swanson will reply to Mr. Shaw tonight on the tariff and will also answer references made to him by C. B. Slemp. He will make comparison of the records of himself and Mr. Lewis, showing that when the latter was calling for federal troops to conduct elections in Petersburg in 1876 he was struggling between plow handles for a honorable state in life.

### Situation in Moscow.

Moscow, Russia, Oct. 9.—The military and police today occupy the streets of Moscow, following the bloodshed and rioting of Saturday and yesterday. The absolute power conferred on the soldiers and police is being freely used for the purpose of quelling any further outbreaks. In addition to the police force, two regiments of grendiers, a squadron of dragoons and eight sotnias of Cossacks are engaged in patrolling the streets. With this force it is hoped that order may be preserved.

London, Oct. 9.—A dispatch to the Exchange Telegraph Company from St. Petersburg announces that martial law has been declared at Moscow, on account of the disturbances which have occurred there between strikers and the troops.

The strike is growing, however, and in this there is an element of danger, as the striking workmen are likely at any time to start trouble. An attempt was made this morning to interrupt railroad communication, and this is regarded as a serious development in the situation. The rails were tampered with a short distance from Moscow, and a train was derailed, but there were no casualties.

### Insurance Matters.

New York, Oct. 9.—New lights and shadows will be thrown on the insurance scandals this week by the legislative insurance investigating committee, which meets here again tomorrow. Senator Chauncey M. Depew and "Judge" Andre Hamilton are wanted by the committee, and it is probable that they will appear on the witness stand before the week is over. "Judge" Hamilton will be asked to account for the $800,000, which he received from the New York Life, and Senator Depew will be quizzed about his $20,000 a year "retainer" from the Equitable, which he received for nearly a score of years. President McCurdy, of the Mutual Life, may be called by the committee to tell many things, especially about his $150,000 salary.

### Quiet After Financial Storm.

Peoria, Ill., Oct. 9.—Calm has succeeded the financial storm that stirred the city last week, and ended with the incipient run on the Dime Savings Bank. This morning the bank is carrying on its business as usual. The grand jury will probably not assemble until this afternoon. When they do meet, it is considered very probable a demand will be made that N. C. Dougherty's bond be increased. C. N. Bosworth, receiver for the Peoria National Bank, took active charge of affairs this morning. He refused to say anything further than that as soon as possible he would make a detailed report of the financial condition of the bank.

The selling, according to brokers executing the orders, has been voluntary liquidation of local speculative accounts, sales for both long and short account by western houses, and some supply by arbitrage brokers on London orders. The Jewish holiday caused activity to lessen. The bond market is steady.

### Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

### Nomination Declined.

New York, Oct. 9.—The republican notification committee named to inform Charles J. Hughes of his nomination by the republican city convention Friday night, as its candidate for Mayor, headed by former Lieutenant Governor Timothy L. Woodruff, met at Mr. Hughes' house 570 West End Avenue, shortly afternoon today to give Mr. Hughes formal notice of his nomination. Mr. Woodruff made the notification speech for the committee and almost pleaded with the attorney to accept the nomination. Mr. Hughes, however, expressed to the committee, in words that could not be mistaken, his inability to make the race for Mayor. After Mr. Hughes had declined the nomination, he was asked if he would consent to meet with the committee on vacancies to discuss the question of the selection of a candidate. Mr. Hughes consented to this request, and the committee at once went into session at Mr. Hughe's house. The declination of Mr. Hughes virtually leaves the republicans without an available candidate in sight.

### Denial from Mayor Conrad.

Major Holmes Conrad, the eminent Virginia lawyer who was Solicitor-General of the second Cleveland administratson, was seen at his home, in Winchester, yesterday afternoon and was questioned concerning the report that he had been offered $20,000 to become leading counsel for John F. Gaynor and Benjamin D. Greene, who were captured in Canada yesterday after fighting extradition for three years and are being taken to Savannah, Ga., by United States Secret Service men to be tried for complicity with Capt. Oberlin Carter in defrauding the government. Major Conrad said: "I have been offered no sum of money to defend these men, Gaynor and Greene, and have no connection with their case." While the charge against them concerns army affairs, Major Conrad is the Government's special counsel in the prosecution of the postal fraud cases and will be taken up in that work for weeks to come. He thinks it would be inappropiate for him to defend some one charged with defrauding the government in any department while prosecuting others in another branch of the of the public service.

### Negro Population.

Washington is the largest negro city in the world. This is a striking result of migration of rural negroes to the cities and of Southern negroes to the north, which in the past ten years has increased the negro population of Chicago to 35,000; of New York, to 70,000; of Washington, to 90,000, and of nearly all the eastern and mid-western cities to a number which seems to justify the attempts which have been made in half a dozen communities—St. Louis, Philadelphia, New York, Boston, Chicago, Baltimore, Washington—to find out by first-hand, dispassionate inquiries what are the economic and social conditions of these colonies. The extent of migration is indicated by the fact that in a great majority of the counties of Virginia in the past ten years there has been an actual decrease in the number of negroes. Of each 10,000 negroes born in the South Atlantic States, 247 lived in the North Atlantic States in 1890, and 403 in 1900.

### Boy Killed by Constable.

Robert Poindexter, the twelve-year-old son of I. N. Poindexter, living near Green Springs Depot, Louisa county, was shot and killed at that place Saturday afternoon by George Chewning, a constable of Louisa county. I. N. Poindexter, the father of the boy, had been tried before Justice J. B. Madison, of Green Springs, on a peace warrant and bound over in the sum of $100. Not being able to give proper security Mr. Poindexter was ordered to be put under arrest. He resisted, and got into his buggy and drove off. He was ordered to stop by the officers, Chewning and Grady, and when he refused to do so they opened fire upon him. His son was by his side in the buggy at the time and was shot by Chewning. The bullet entered the back of the head, killing him instantly.

The steamer Tartar, which arrived at Victoria, B. C., Saturday, brought news from Japan that the story was current that the accident to the battleship Mikasa at Sasebo was occasioned as a result of a mutiny on board because of the resentment by the crew of the peace terms. According to the report the men mutinied and attempted to seize the ship, when some officers fired the magazine. Soon after the disaster Admiral Togo went to Tokio to leave report of the occurrences before the Emperor.

### Three Hundred Villages Destroyed.

According to the latest official reports, 300 villages were destroyed by the recent earthquake in the province of Calabria, Italy. Reconstruction work, it is estimated, will cost about $30,000,000, and funds contributed up to the present time amount to $400,000. The Pope is much distressed because of the situation, especially now that the severity of the autumn weather is felt among the inhabitants of the stricken district. The Pontiff received Rt. Rev. Francis Bourne, Catholic Archbishop of Westminster, in audience, and thanked him warmly for opening a collection among the clergy of Westminster, adding that "all good Catholics throughtout the world should imitate him."

The crater of Vesuvius is very active. A quantity of lava is flowing down the side of the mountain and columns of smoke are seen ascending there to an immense height, scattering red hot ashes over the district in the vicinity. It is believed the eruption has some physical connection with the earthquake shocks which are now going on in Southern Italy, although their force is diminished.

On the fifty-sixth anniversary of the death of Edgar Allen Poe, which occurred Saturday, a bronze tablet was placed upon the door of his dormitory, Room No. 13, West Range, University of Virginia, in the presence of a large assemblage of professors, students and others.

DOMUS PARVA MAGNI POETAE
MDCCCIX—MDCCCXLIX.

It was formally presented, on behalf of the donors, by Prof. William H. Thornton, dean of the engineering school, and accepted by President Alderman, on behalf of the university. A very graceful paper on Poe's life at the University of Virginia, prepared by Dr. James A. Harrison, of that institution, the author of the Virginia edition of Poe's works, was read by Dr. Charles W. Kent, of the chair of English literature. The veil was withdrawn by little Eleanor Douglas Kent, daughter of Dr. Kent.

### Question.

What is the reason that the odor from the night carts has of late been so unusually offensive? Recently the stench from them was such as to cause a case of sickness, and in delicate people and young children cholera might easily occur from such a cause even in the winter, not to mention the inexcusable nuisance of such smells. Why is there so much carelessness in this respect? The carts have been very offensive all summer. X.

A report was made to the detective bureau in Washington yesterday that a fine clock, the property of Senator Porter J. Our Splendid Autumn Preparation.

We Have Pleasure in Announcing That Our

Selections and Direct Importations

For the Autumn and Winter Seasons of 1905-06 are shown in the various departments, and the whole store invites you to a most unusual display of merchandise—unusual in importance and interest—as well as special showings of exclusive art things. This season we sent abroad several of our department buyers. They combined with our resident representative in Paris in gathering the choicest groups of merchandise we have ever shown.

Though we have thus broadened our stocks of highest class merchandise in response to the well-defined call, we have not slighted the staples, upon which a large part of this store's success has been founded. That we sell the imported fashions and novelties as we sell the staples—at the lowest prices consistent with quality—accounts more than anything else for the constant bettering and broadening of our buying plans.

The Beautiful New Dress Stuffs

(Second Floor, G Street).

Our display of the new Dress Materials includes all the correct fabrics for church, wedding, reception, calling, shopping and traveling costumes. This charming lightweight Broadcloth, which is guaranteed not to spot, is made in Belgium by one of the leading manufacturers. It is exclusively ours for Washington.

54 Inches Wide, $2.50 the Yard.

Among the imported materials are many rich and exclusive weaves purchasable only in our Dress Goods Department.

**A Scotch Collie Story.**

A story of a Scotch collie is current on the Derbyshire border, according to the Dundee Advertiser. A farmer in the Peak district, having purchased a small flock of sheep in the lowlands, drove the flock the whole way from Scotland to his farm in Derbyshire with the aid of a collie dog which was lent to him by the Scotch farmer from whom he purchased the sheep. "When you get to your home with the sheep," said the Scotchman, "let the dog fill his belly; then tell him to go home." The Derbyshire man duly arrived at his farm with the sheep and was so pleased with the collie dog and its performance that he decided to keep it a few days before sending it back. One day he was away from home during the whole of the day, and on returning in the evening he found that the Scotch collie was missing and also the flock of sheep. In a few days tidings came that the dog had arrived at his Scotch home and had brought the sheep back with him.

**Breaking It Gently.**

He is a rather serious minded boy who has more sense of responsibility than many grown persons. So when he was sent to his grandmother's to break the news of her aged sister's death he did so with much gravity and no little self importance.

"Now, Alfred," his mother said, "you mustn't tell grandma suddenly, because it might shock her, even though she knew Aunt Martha was ill. Tell it to her gently."

"All right," assented Alfred, starting out on his mission with mingled solemnity and eagerness.

Arrived at his grandmother's house, he greeted her with a sober "Hello!" and then proceeded to "break the news" by saying:

"Aunt Maria's dead, grandma, but you mustn't feel bad, 'cause she was pretty old, anyhow. You'll be the next one, I s'pose."—Brooklyn Life.

**Not Mere Curiosity.**

The world has a store of pleasures in waiting for the unaccustomed traveler. Sometimes, indeed, they may be mostly in anticipation, as was the case with Amos Riggs of Plumtown.

"How d'ye do?" said Mr. Riggs cordially to the stern visaged man who was his seat mate in the car on the occasion of Mr. Riggs' first trip to Boston. "Now what might your name be? Do you live in Nashuy or beyond?"

"I should like to know what business it is of yours where I live or who I am?" said his companion crossly.

"Well, now, it ain't any partic'lar business o' mine, strictly speaking," said Mr. Riggs mildly, "but it's jest like this: I've got a cousin up in Canady that I've never seen, and I've always thought I might come upon him some time jest by asking folks their name and so on."

**Tides and Storms.**

When a tempest is approaching or passing out on the ocean, the tides are noticeably higher than usual, as if the water had been driven in a vast wave before the storm. The influence extends to a great distance from the cyclonic storm center, so that the possibility exists of foretelling the approach of a dangerous hurricane by means of indications furnished by tide gauges situated far away from the place then occupied by the whirling winds. The fact that the tidal wave outstrips the advancing storm shows how extremely sensitive the surface of the sea is to the changes of pressure brought to bear upon it by the never resting atmosphere.

**Green.**

Owing to its derivation the word "green" was originally applied to the color of vegetation, but not to the color of the sea. No application of "green" to the color of the sea is quoted before Chaucer, but as early as the year 700 it was used for vegetation. The word is akin to "grass" and "grow," which verb originally belonged to the vegetable world alone. Vegetables "grew," but animals "waxed." "Green" comes from an Aryan root, "ghahr," meaning to be green or yellow, and "yellow," "gold" and "yolk" come from that same root.

**Tapioca and Pearl Tapioca.**

Tapioca is manufactured from the plant called in Brazil manioc, in Peru yucca and in the West Indies cassava. When the true starch is separated from the root it is placed on hot plates and while it is heating is stirred with an iron rod. The starch grains burst, and the whole agglomerates into small, irregular masses. Pearl tapioca is not a product of the plant at all, but of potato starch.

**American, All Right.**

A countryman registered at a hotel in Kansas City the other day. He did not explain on what "plan" he purposed to become a guest.

"European or American?" asked the clerk.

The guest looked surprised. "American," he said emphatically. "Born and raised up here in Platte county. I don't look like no foreigner, do I?"

**A Different Meaning.**

Beaks—What brought on old Wilkin's paralytic stroke? Peaks—I didn't know he was afflicted with one. Beaks—But you just told me he was paralyzed. Peaks—Quite true; but I didn't say he was suffering from a paralytic stroke.—Milwaukee Sentinel.

**Doomed.**

"He'll never reach the top in his profession."

"Why, he believes he's there now."

"That's the very reason that he'll never get there."—Philadelphia Ledger.

A good action is never lost. It is a treasure laid up and guarded for the doer's need.—Calderon.

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure Indigestion and Dyspepsia. It is curing hundreds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. F. Creighton, & Co. 401 King street.

**A Daredevil Ride**

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at E. S. Leadbeater, & Sons, druggists.
